

MicroSeal® NW Antistatic

100% Polyester Cleanroom Wiper

MicroSeal® NW Antistatic is a sealed edge knitted polyester wiper. A conductive fiber is knitted into the material to provide increased control over static. MicroSeal® NW wiper is laundered and packaged in an ISO class 4 cleanroom.

Key Attributes

- 100% knitted polyester which attracts and dissipates the charge
- Sealed edge with antistatic fibre which dissipates static charges
- Laundered and packaged in Berkshire's ISO Class 4 cleanroom
- Lot traceability
- Double bagged

Benefits

- Chemically compatible with common cleaning and disinfecting solutions
- High abrasion resistance
- Ultrasonically sealed edge for extremely low fibre release

Applications

- Designed for use in ISO Class 3 and higher cleanroom environments
- Ideal for use in critical application where contamination and static control are a concern
- Excellent solution for semiconductor and electronic manufacturers

	Cl ⁻	ppm	0.014	

Notes:

- Technical data represented in this table are typical values at the time of publication. These should not be used as product specifications.
- Due to differences in test methods applied and equipment utilised by different wiper manufacturers, valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions
- Third party testing can be performed upon request

Order Information:

Product	Number	Size	Shts/pk	Pks/cs	Style
